M. Steffin Wins Cup At Mink Show

IN THE ABOVE PHOTOGRAPH Miss Vera Welsh is receiving the Papal Bene Merenti medal from the hands of Most Rev. P. Lussier, C.Ss.R., D.D., Bishop of St. Paul, in St. Catherine's church, Lac la Biche. On the right of the bishop is the Rev. J. E. McGrane, present pastor of Lac la Biche. The Bene Merenti medal is an award given by the Vatican for outstanding accomplishments on behalf of the Catholic church or christianity.

VERA WELSH RECEIVES DISTINCTIVE PAPAL HONOR FROM ARCHBISHOP

Over 30 years ago, responding to a request for Catholic school teachers for western Canada, Miss Vera Welsh was one of a group that volunteered to come out to Alberta, and she settled in this district.

Ever since that time she has been most devoted in this work in Plamondon, Wandering River and for the past 13 years in Lac la Biche where at present she is vice principal in one of the schools.

Not only has Miss Welsh given a wonderful example as a staunch Catholic worker but has done much for the Christian education of the youth of this district and she has been most successful in the classroom. Also she has given outstanding parochial co-operation in every parish in which she has been.

Finally her efforts for God and the church were crowned by the presentation at St. Catherine's Church, Lac la Biche, by His Excellency Bishop Lussier of the Papal Bene Merenti Medal. This honor was requested from the Holy Father by Bishop Lussier when he had an audience with the Pope during his visit to Rome last year. The presentation was made while His Excellency was here to administer the sacrament of confirmation Tuesday, Oct. 29.

Miss Welsh's mother is still living in Peterborough, Ont., the teacher's former home and a telegram was sent to inform Mrs. Welsh of the honor bestowed upon her daughter. Fr. E. A. Welsh of Peterborough is a brother of Miss Welsh. The whole parish shares in this honor and rejoices with her in this papal presentation.

Winner of the Grand Aggregate at this year's Fur Farmers' Field Day, was Mike Steffin, of Lac la Biche, with 45 points. In winning the Silver Cup, Mr. Steffin was only one point ahead of Mike Maskalyk, who took home the cup last year.

Each of these mink ranchers handle around 1700 mink, and have been in the business here for the past 12 years.

Mr. Steffin received seven first prizes, five seconds and three thirds on the 20 mink entered at the show. Mr. Maskalyk took home the fine Hudson Bay blankets donated each year by the Hudson's Bay Co.

There were 256 mink entered this year by Lac la Biche and Plamondon farmers. Ribbons were awarded to first, second and third prize winners, and merits, fourth, fifth and sixth placings.

Judges were Mr. Cecil Johnstone, and Mr. John White, both of the Fur Sales Department of the Hudson's Bay Co., Montreal.

The show was held in the curling rink with Gustus Byrkalo, president, and Harry Cramer, secretary-treasurer of the organization in charge of arrangements. Free coffee and rolls were served throughout the day by Mr. Cramer.

The banquet in the evening, held in the Masonic hall, while not as well attended as that of last year, was enjoyed by all present.

A turkey dinner with all the trimmings was served by the United Church Ladies' Aid.

Special guests at the banquet included Bob Gillies, Fur Farm Supervisor, from the Provincial Department of Agriculture, who acted as chairman for the evening; Dr. O'Donohue, of the extension department of the Provincial Department of Agriculture; Cecil Johnstone and John White, of the Fur Sales Department, Hudson's Bay Co., Montreal; John Ross, from the Raw Fur Department of the Hudson's Bay Co., Edmonton; and Percy Winters, of Edmonton Processors.

Following the banquet the prizes were awarded by Mr. Gillies, after which Mr. Johnstone spoke at some length to the assembled mink farmers, their wives and guests.

PLAMONDON — Bursaries, prizes, diplomas and certificates were presented to local school students at an evening program in the community hall Oct. 18.

The bursaries, donated by the Rev. Fr. Ricard, were presented to students of grades 9 and 12 by the Rev. Ricard.

Prizes and a certificate for achievement in religion were presented by the Rev. Fr. Noel of Atmore, who followed the presentation with a talk on the importance of religious training.

Diplomas and certificates for achievement in French were given by Claude Gauthier, school trustee.

Assistant school principal Paul Piquette acted as master of ceremonies. Between presentations, each class gave brief entertainment in form of either songs or pantomimes. The large number of parents present filled the hall to capacity.

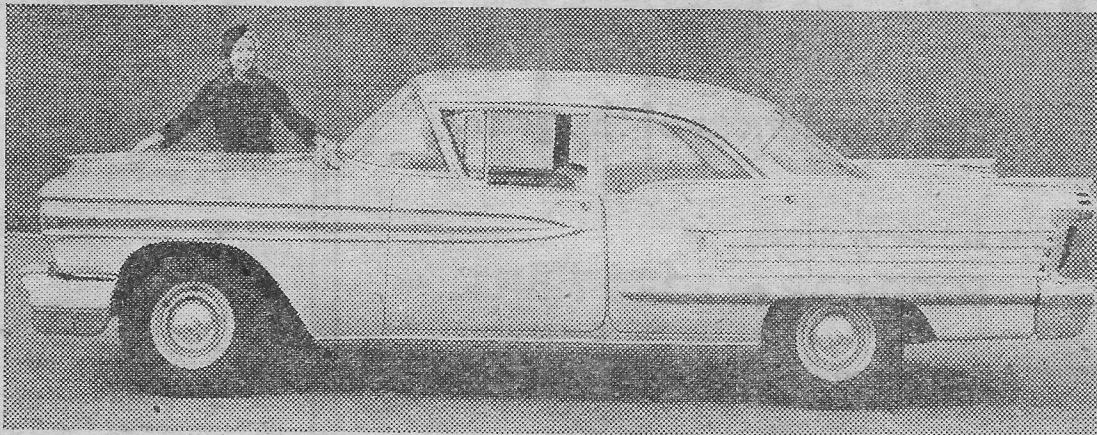

ELECTRIC POWER BY CHRISTMAS

Power by Christmas is the hope and dream of many farmers between Lac la Biche and Rich Lake, who formed a rural electrification association a short time ago.

Northland Utilities Company, who will furnish the power, are working feverishly to make this dream come true.

Engineer E. G. Dobson, in charge of the project, has about a dozen men on the job doing their best to complete the line by Christmas.

The transformation which will take place when, by the flick of a switch, many farm homes, yards and outbuildings will be flooded with strong quiet light, will be a happy moment for many farm families along the line.

Exciting styling changes that enhance the appearance from every angle mark the Oldsmobile Super "88" for 1958. Oldsmobile's new "mobile" look is evident in the entirely re-designed body, new rear quarter panels, a new front end with recess-type grille and four-beam headlamps, one-piece rear window with greater glass area and new rear deck and roof. The decorative trim on the side panels accentuates the length, flowing lines and low silhouette of the new Oldsmobile. Striking interior styling features a new "star-lite" headlining of sponge vinyl in light colours to set off the "fashion-flair" upholstery, offered in a variety of colours and fabrics.

years. Mr. Johnstone sought to bring some practical points to the attention of his listeners.

Basing his talk on "How we can help you get more money for your mink," the speaker touched on markets, handling of pelts, stretching, pelting, drumming etc. He favored the use of deep, well-bedded pens, saying that when the mink was obliged to reach up in the vertical position the exercise tended for longer growth of body than when pens were shallow. He also spoke of the necessity for care in fleshing in order to keep fat from the fur. As for drumming, he said this should be done carefully and skillfully or it could do more harm than good.

He gave some useful pointers on the right kind of boards for stretching, demonstrating by blackboard drawings how the board should be tapered so as to allow for ease of removal.

In the different colors of mink, the pastel shades seem to be very popular, but dark mink have been bringing spectacularly high prices in many cases, especially the brown.

From large garments of mink, the trade has taken a swing to trimmings on various types of garments; sapphire and white mink are in demand for trimming on the most exclusive articles. Palamios are also in demand, but in the topaz, the color does not stand up well.

On the pelting of mink Mr. Johnstone spoke very frankly, saying that no area quite equalled Northern Alberta in indifference of pelt-

ing. He stressed the need for more care in the preparation of the pelts in the raw state to present the color and quality of the fur in its maximum of beauty.

In drying the pelt care should be exercised to have humidity and temperature right. If pelts are shipped when not entirely dry they may be mildewed, and considerable loss may result.

Following Mr. Johnstone's talk which held the interest of the crowd for over an hour, a question period was held to enable the ranchers to obtain advice on various problems.

In explaining different methods of fastening the pelts to the stretching board, the speaker deplored the use of the Bostitcher which has been used by some.

Dr. O'Donohue showed a number of films on disease of mink. In his remarks he stated that there seems to be fewer diseases among mink in the past few years, but he advised farmers to vaccinate against distemper. He also stressed the importance of cleanliness to keep the herd free from disease.

Stolen Car Worries Willie

While drinking a cup of coffee, in a local cafe, about 6:15 a.m. Nov. 7, Willie Hamilton had the misfortune to have his car stolen.

Planning to drive to the city, Willie had left his car warming up just outside the cafe while he drank a cup of coffee with Oscar Tremblay and Tom McCullough, who were to accompany him.

When he came out of the cafe and found his car gone he thought some of his friends had moved it as a joke.

After a short search, around town the trail was picked up heading out on the Spedden road, the

tracks being easily identified as the car had been fitted with new tires only the day before.

Before reaching the end of the street the driver changed his mind, backed up and proceeded on the highway toward Edmonton. Although the RCMP were notified at once and road blocks set up, the driver managed to reach the city without being stopped.

Early Friday morning city police apprehended a man reported to be under the influence of liquor, in the stolen car in Jasper Place.

The man was identified as a transient who had spent two nights in Lac la Biche previous to the theft of the car.

He had made some enquiries about a ride to Edmonton that morning, and after meeting with

disconagement, evidently decided to appropriate the car, a 1956 Pontiac with a full gas tank and ready for the road. The trial is to be held in Lac la Biche at a later date.

The secretary, submitting her resignation, wrote as follows: "My reason for leaving will soon be apparent—and so will I."

PERMIT SIX - MONTH ABSENCE IN OIL DIVIDEND ELIGIBILITY

Permissible period of absence from place of residence, as defined under the Oil and Gas Royalties Act, has been revised upward from 90 days to six months. Announcement of the change, which will make many Albertans previously disqualified now eligible for dividends, was announced this week by the Alberta Government.

Experience gained under the

first two months of dividend distribution, has shown the original 90-day period was too short. Many older Alberta citizens, enjoying a holiday after years of residence, were disqualified. Others forced to spend winter elsewhere due to health reasons, were also made ineligible. Out-of-province seasonal employment or educational requirements required others to disqualify themselves.

Government officials estimated the original \$11,000,000 appropriation under the Act was sufficient to handle the additional applications the change would bring forth.

Regulations will be reviewed further prior to the 1958 payment to remove any further inequities which may become apparent.

PLAMONDON MAN, N. LEFLEUR DIES

Napoleon LeFleur passed away in hospital on Nov. 2 and was buried in Plamondon on Tuesday, Nov. 5.

Funeral mass was held at St. Isadore's parish church. Rev. Fr. Ricard officiated and burial was in the Plamondon cemetery.

Exact age of the deceased was not known but it is thought that he must be well over 80. He had been a resident of the Plamondon district for over 50 years and for the most of the time resided with his nephew Fred Lefleur at his home near Gourin.

Mr. Lefleur was a quiet and kind man and well respected by all in the district.

He leaves to mourn his loss his nephew, Fred Lefleur and two grandsons.

Many old timers of the district attended the funeral.

feet lay a huge pink diamond, the forerunner of a fabulous harvest that was to come.

This amazing saga of faith, courage, strength and determination started in 1930 when Williamson arrived in South Africa from Montreal, his home town. He had graduated from McGill university with honors, a doctor of philosophy as well as a doctor of science.

Quiet, soft-spoken Williamson first worked for a Rhodesian copper company, then switched to the giant DeBeers diamond combine. Williamson's calculations, made

over a period of five years, pointed to a rich "pipe" or vein near the remote town of Shinyanga in Tanganyika. He resigned from the DeBeers corporation and carefully checking his surveys, the geologist bought the mineral and diamond concessions on 3,000 acres in the area. Then he purchased provisions, a bicycle, a tent and a sleeping bag, and set out on what everyone called his "mad adventure".

John Carlova tells this fascinating Star Weekly story, describing now Williamson's convictions were proved, after years of arduous

searching, and how he defied the world's largest diamond combine and developed his diamond mine.

Ed. Note: Readers may be interested in the fact that Williamson (Jack) has many relatives in Alberta. His maternal grandmother, the late Mrs. Elizabeth Loudfoot, was an early settler at Lake Saskatoon. She arrived there about 1910 and lived on a homestead with her son Joseph Boyd, son of a former marriage. An uncle and cousins still live in the Peace River country.

Canadian Geologist's Diamond Discovery

The graphic details of the find which has made John Thorburn Williamson, a Montrealeur, one of the richest men in the world, is told in the current issue of The Star Weekly.

The article tells how Williamson, after years of searching, literally stumbled over a fortune in a corner of primitive Tanganyika in Africa.

On the verge of collapse, Williamson's indomitable spirit stirred him to move on. He rose, moved forward and looked down. At his
